

“CASEY FOR CONGRESS”
POLISH AMERICAN CONGRESS
ILLINOIS DIVISION ELECTIONS – 2011

MOST IMPORTANT IS POLONIA AND POLISH AFFAIRS

The most essential mission for the Polish American Congress is to restore the Polish political influence in the United States on all levels of the local, state and federal governments. Only when Polonia achieves genuine and measurable influence, and only then we will be in a position to exercise successfully our political influence. Our parallel priority is to render political assistance in USA for actions of the Polish Government to secure in the US Congress legislature benefiting Polonia and Polish interests. Currently, we must assist with legislature regarding immigration laws - VISA Waiver Program(VWP), social security benefits(WEP) and score of others. To that end, our Division in conjunction with others must work arduously to develop an advanced outreach program to connect with the political establishment in the state, and in a close consultation with the National, to aid and to augment the efforts of the National PAC. We are one of the biggest Divisions in the Congress and we can do this job well! To accomplish our ambitious aspirations, our Division must set in motion a mission to unite, mobilize and organize local and state Polonia. Only as a coherent and well organized ethic group we can and we will achieve desired political and economic status, which other groups enjoy already for the longest time.

FOUNDATIONS ARE READY – LETS CONTINUE TO BUILD!

Although the agenda of the National PAC, adopted in October of 2009 calls for four dozens of various projects and programs, but my administration will laboriously concentrate on implementation of five only. They are:

- **During the next year I will engage all efforts of the Division to double our membership roster**
- **I will engage, mobilize and organize students at the Polonia Saturday Schools and at the universities**
- **The Division will undertake political indoctrination of Polish Community with the sole purpose of improving the participation in political process, especially in the elections. Currently, only 4% of our electorate votes.**
- **I will take all necessary steps to establish a Polish Cultural Center**
- **I will initiate fundraising drives with renowned foundations and companies to improve our finances**
